

Working light HID Flood

The **working lamp HID Flood** is a gas discharge working or tripod lamp especially designed for wide area illumination. The swiveling tripod connector enables the lamp to be mounted on any standard tripod. Alternatively the lamps can be ordered with vehicle brackets, for the attachment to roof racks etc. Equipped with a xenon-gas discharge bulb the lamp guarantees a high light output (up to 4-times higher in relation to halogen bulbs with comparatively similar burn

Technical data:

Bulb	:	50 W D2S HID Xenon-Light
Energy source	:	extern, 12 V oder 24 V
Body	:	Aluminium
Dimensions	:	Ø 109 mm x 160 mm
Weight	:	2.600 g
Colour	:	black
Lens	:	hardened glass (heat resistant)
Pressure	:	IP67 charging socket
Beam angle	:	ca. 70°
Basic variant	:	magnetic ON/OFF switch Standard Tripod mount with adjustable joint Handle car plug

Optional accessories:

- Wide range input 12-24V
- Interchangeable lens Spot 4°
- Car mount
- 3-point magnetic holder for standard tripod holder
- Vehicle transport recording
- Transport case - shock resistant and water tight
- C16 plug 12/24V vehicle plug
